

# DATA CURATION & RESEARCH DATA MANAGEMENT

## Untuk Terwujudnya Integrasi Data Riset Di Indonesia

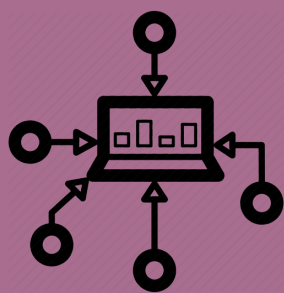

High volume of research data are produced everyday. Many of research data could have been lost if we do not care on how to manage it.

Research institutions work independently

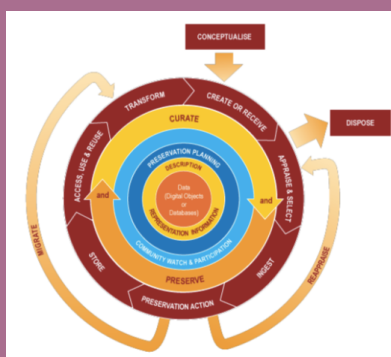

# RP. 25 T

The budget for the development of research have been spent from APBN That should be effective and efficient every year, then it needs to be evaluated.

## DATA INTEGRATION

Good research data management could improve visibility of research data and it could lead to research data integration across different institutions.

## DATA CURATION

Whole stages that could guide institution to evaluate the research data cycle is needed to plan the data management planning for research institute. (DCC Curation Lifecycle Model, Digital Curation Centre, 2018)

## AWARENESS OF RESEARCHERS

Within the process of data curation and research data management, positive attitudes of researchers also play an important role to guide research institutions to have the right tools and system for the implementation of research data management.

## SUPPORTED ELEMENTS FOR RESEARCH DATA MANAGEMENT
